

Junior Dentist

BrightCare Dental Studio

Tirana, Albania

Full-Time

Starting your dental career should involve more than repetitive procedures and administrative pressure. At BrightCare Dental Studio, we want junior dentists who are curious, motivated, and excited to grow clinically and professionally.

We are looking for a Junior Dentist to join our expanding dental practice in Tirana. This role is ideal for recent graduates or professionals with limited experience who want mentorship, hands-on exposure, and the opportunity to build confidence within a supportive clinical team.

You will work closely with experienced dentists, assistants, and patient care staff while gradually developing practical skills in examinations, preventive treatments, restorative procedures, and patient communication.

What your day could look like

- Conducting patient consultations and assisting with oral examinations.
- Supporting senior dentists during more advanced treatment procedures.
- Performing preventive care and basic restorative treatments under supervision.
- Reviewing patient histories and maintaining accurate clinical records.
- Educating patients about oral hygiene and preventive dental practices.
- Assisting with treatment planning discussions and patient follow-up care.
- Collaborating with clinic staff to ensure efficient patient scheduling and workflow coordination.
- Learning digital imaging and modern dental technology systems used within the clinic.

What we are looking for

- Degree in Dentistry.
- 0–1 years of clinical experience or internship training.
- Strong willingness to learn and develop professionally.

- Good interpersonal and patient communication skills.
- Professional attitude and attention to patient comfort and care quality.
- Ability to work effectively within team-based healthcare environments.
- Fluent English communication skills.

Why join us

- Structured mentorship from experienced dental professionals.
- Modern equipment and digital dental technologies.
- Supportive clinical environment focused on learning and development.
- Career progression opportunities and specialized training support.
- Positive and collaborative team culture.
- Opportunity to gain experience across different areas of general dentistry.

We believe confident dentists are built through experience, mentorship, and supportive teamwork. If you want to grow within a modern and patient-focused clinic, we would love to meet you.
