

EUROPASS CURRICULUM VITAE

PERSONAL INFORMATION

Name: Klea Hoxha

Address: Tirana, Albania

Phone: +355 68 772 4431

Email: klea.hoxha.mech@gmail.com

LinkedIn: linkedin.com/in/kleahoxha

Nationality: Albanian

PROFILE

Detail-oriented and motivated Mechanical Engineering graduate with practical experience in CAD modeling, technical documentation, and industrial equipment analysis. Graduated from Epoka University with a GPA of 3.7 and completed internships involving manufacturing support, system maintenance, and engineering calculations. Strong interest in mechanical design, energy systems, and industrial operations. Able to work effectively in collaborative technical environments while maintaining strong attention to detail and engineering accuracy. Passionate about developing practical engineering solutions and continuously improving technical knowledge through professional experience and teamwork.

WORK EXPERIENCE

July 2024 – October 2024

Junior Engineering Intern

MotionTech Engineering — Tirana, Albania

Main activities and responsibilities:

- Assisted senior engineers during mechanical equipment inspection and maintenance activities.
- Prepared CAD drawings and revised technical layouts for ongoing industrial projects.
- Supported mechanical calculations related to equipment performance and operational efficiency.

- Participated in project meetings involving suppliers and technical contractors.
- Helped organize engineering documentation and maintenance schedules.
- Assisted with equipment installation observations and testing procedures.
- Supported troubleshooting activities related to industrial machinery and mechanical systems.
- Assisted with technical reporting and project documentation preparation.

Business or sector:

Industrial Engineering and Mechanical Systems

2023 – 2024

Laboratory Assistant (Part-Time)

Engineering Faculty Laboratory — Tirana, Albania

Main activities and responsibilities:

- Assisted faculty staff with laboratory equipment setup and maintenance.
- Helped students during practical engineering laboratory sessions.
- Maintained records regarding laboratory materials and technical equipment usage.
- Supported laboratory safety and equipment organization procedures.
- Assisted with preparing technical materials for engineering demonstrations and experiments.

Business or sector:

Higher Education / Engineering Laboratory

EDUCATION AND TRAINING

2021 – 2024

Bachelor in Mechanical Engineering

Epoka University — Tirana, Albania

Final GPA: 3.7/4.0

Main subjects covered:

- Mechanical Systems Design
 - Applied Mechanics
 - Fluid Power Systems
 - Manufacturing Technology
 - Industrial Engineering
 - Energy Systems
 - Engineering Simulation
 - Thermodynamics
 - Engineering Materials
 - CAD Modeling and Technical Drawing
-

ACADEMIC PROJECTS**Energy Efficient Cooling System Design**

- Developed a university project focused on improving cooling system efficiency for industrial applications.
 - Conducted thermal analysis calculations and prepared CAD models for presentation.
 - Collaborated with classmates to evaluate material performance and energy optimization methods.
 - Assisted with technical reporting and engineering documentation during the project lifecycle.
-

Robotic Arm Prototype Project

- Assisted in designing and assembling a small robotic arm prototype using mechanical and electrical components.
- Participated in testing movement precision and structural stability.

- Prepared technical documentation and project reports for academic evaluation.
 - Collaborated with team members during assembly, testing, and troubleshooting activities.
-

PERSONAL SKILLS

Mother tongue

- Albanian

Other languages

English

- Listening: Fluent
- Reading: Fluent
- Spoken Interaction: Fluent
- Spoken Production: Fluent
- Writing: Fluent

German

- Listening: Intermediate
 - Reading: Intermediate
 - Spoken Interaction: Intermediate
 - Spoken Production: Intermediate
 - Writing: Intermediate
-

TECHNICAL SKILLS

- AutoCAD
- SolidWorks
- MATLAB
- Technical Drafting

- Mechanical Calculations
 - Engineering Documentation
 - Equipment Inspection
 - CAD Modeling
 - Engineering Reporting
 - Technical Analysis
-

COMMUNICATION AND ORGANIZATIONAL SKILLS

- Strong communication and collaboration abilities developed through internships and academic projects.
 - Ability to work effectively within multidisciplinary engineering teams.
 - Good organizational and time management skills in technical project environments.
 - Strong analytical thinking and problem-solving capabilities.
 - Ability to adapt quickly to new technical workflows and engineering software.
-

DIGITAL COMPETENCE

- Microsoft Word
- Microsoft Excel
- Microsoft PowerPoint
- Google Workspace
- Engineering Simulation Software Basics
- Digital Documentation Management
